URC Module Release Notes

14 Aug 17

The purpose of these release notes are to provide detailed information regarding fixes, enhancements, and known issues related to the Luma IP Camera Control System modules.

What It Is

These are the official URC modules for Luma IP cameras.

Important Note

Please ensure the sub stream on your control system is set to 6 frames per second or higher. Some control systems treat a stream with lower frame rates as if it were an image.

Where to Find It

The driver can be found in the URC Total Control System software database.

Features Added

Support of JPEG/MJPEG streaming on cameras on an external network switch and on the PoE port of the NVR.

Known Limitations

H.264 is not supported on this control system.
